GADI TRAVELS

The Story Board

Gadi Travels Pvt Ltd

Gadi Travels Pvt Ltd is a trusted leader in employee transportation, on-demand cab services, and sustainable travel solutions. With a strong reputation for reliability and customer satisfaction, we are committed to delivering innovative technology solutions in the transportation and mobility sector.

Our services represent a strategic move toward automation, smart fleet management, advanced analytics, and digital mobility solutions. With a focus on safety, efficiency, and service excellence, we cater to a wide range of corporate clients across the region

GADI TRAVELS

Introduction

Gadi Travels Pvt Ltd

established in 2015 by **Mr. Ravi K.P**, is a trusted leader in employee transportation, known for its operational excellence and customer-centric approach. What began with a modest fleet of 50 vehicles has evolved into a robust operation across the region, with over 600 vehicles, including EV Segments; and continually growing to meet rising demand.

Supported by a dedicated team of more than 30 professionals and 24/7 operational assistance, we ensure reliable and seamless service delivery. Our operations are built on the principles of transparent governance, operational efficiency, and a forward-looking approach that embraces technology and sustainability

Through strategic collaborations with leading technology partners, we provide fully automated, end-to-end transport solutions, reinforcing our strong commitment to employee safety, reliability, and well-being.

As we continue to grow, sustainability remains central to our vision. This is reflected in our increasing investment in electric vehicles and our ongoing initiatives to reduce our carbon footprint across all service operations.

Vision & Mission

At Gadi Travels, we envision a future where mobility and sustainability go hand in hand. Guided by the global aspiration to achieve an **Ideal Environmental State by 2030**, we are committed to playing a proactive role in building a **low-carbon society**—the foundational pillar of global environmental responsibility.

We aim to lead the transportation sector toward a cleaner, greener future by continuously integrating eco-friendly technologies, reducing emissions, and fostering environmentally responsible practices across our operations.

Our mission is to **support industries and organizations** in their journey toward environmental excellence by delivering **sustainable, low-emission transport solutions**. In alignment with the first pillar of the Global Environmental Commitment, we are dedicated to:

- **Accelerating the adoption of electric and low-emission vehicles**
- **Reducing our carbon footprint**
- **Partnering with stakeholders**
- **Creating awareness and accountability**
- **Investing in technologies and practices**

Together, we strive to be not just a service provider, but a responsible **partner in progress**, enabling the transition to a

GADI TRAVELS

Contribution towards Sustainability

In line with our sustainability-focused vision and mission, we are steadily expanding our Electric Vehicle (EV) fleet in a phased manner. As of now, our EV fleet has grown to 75 vehicles, reinforcing our commitment to environmentally responsible operations and cleaner mobility solutions.

We strongly believe in collaborating with our client partners to achieve shared sustainability goals. In support of this commitment, we are open to procuring and deploying dedicated Electric Vehicles (EVs) based on business volume and operational requirements. By working together, we can drive meaningful progress toward cleaner, more sustainable logistics solutions.

Overview

- Comprehensive transport management covering **planning, execution, and monitoring** of daily employee commute.
- Integrated approach combining **fleet management, technology enablement, and operational excellence**.
- Focused on delivering **reliable, safe, and cost-optimized transportation** for employees across all shifts
- Centralized **Transport Management System (TMS)** for scheduling and trip optimization.

GADI TRAVELS

Compliance Monitoring

- Conducting vehicle and driver induction processes.
- Verifying driver and vehicle documents.
- Mapping vehicles and drivers in the system tool.
- Filing hard copies of documents.
- Updating the transport compliance checklist.
- Cross-checking vehicle documents in both soft copy and hard copy formats.
- Ensuring vehicles are equipped with essential items such as first aid kits, torches, fire extinguishers, tool kits, functioning headlights, and indicators.
- Organizing driver meetings.
- Providing training sessions for drivers.
- Managing GPS installation and operations.
- Reviewing and correcting compliance reports.
- Ensuring compliance by reviewing data from security checks on vehicles and drivers.

GADI TRAVELS

BCP – (Business Continuity Plan)

- In crisis situations, a member representing the management team will work closely with the client to provide full support during any BCP (Business Continuity Planning) scenario.
- We maintain better control during crises as we have access to our fleet of vehicles and drivers.
- During BCP, we collaborate with the client to fulfil their requirements while adhering to government regulations and ground realities.
- Backup vehicles will be arranged promptly in case of emergencies.
- In the event of any city alert, the client will be informed, and we will provide maximum support through close coordination.
- All team members are well-prepared for crisis situations, with buffer staff ready to be deployed onsite as part of an emergency succession plan.
- We have tie-ups with many fuel stations at strategic locations, ensuring a reserved fuel supply to handle contingency situations.
- Timely actions will be taken with prior client approval to address emergencies effectively.
